To Whom It May Concern:

As an interior designer and founder of Karamia Designs Inc., I have had the pleasure of working with ScanM2 on several projects requiring 3D building documentation and as-built services. Their outstanding performance, professionalism, and attention to detail have made them a valued resource for my design practice.

Throughout our collaboration, ScanM2 has provided detailed documentation that supports the design and planning process. Their clear communication, efficient coordination, and responsiveness have contributed to a smooth working experience.

Accurate documentation of existing conditions is essential to developing thoughtful, well-coordinated interior designs. I appreciate ScanM2's commitment to quality and the care they bring to each project.

I continue to work with ScanM2 and highly recommend their services to fellow interior designers, architects, property owners, and other professionals seeking dependable building documentation. I look forward to our continued collaboration.

Sincerely,

Karina Rizzo, CID, Allied ASID
